Overview

The Music Survey Platform is a web-based application designed to collect and analyze responses about piano playing experiences. It consists of two main interfaces:

- **Public Interface:** Where respondents take surveys
- **Admin Dashboard:** Where administrators create surveys and view analytics

URLs

- **Public Survey:** <https://music-quiz-xi.vercel.app/>
 - **Admin Dashboard:** <https://music-quiz-xi.vercel.app/admin> (restricted access)
-

For Survey Respondents

Taking a Survey

1. Visit the public URL: <https://music-quiz-xi.vercel.app/>
2. You will see a list of available surveys
3. Click "**Take Survey**" on the survey you wish to complete
4. Read the instructions at the top of the survey
5. Answer each question:
 - **Scale questions (1-5):** Click on the number that best represents your response
 - **Text questions:** Type your response in the text box
 - **Choice questions:** Click on the option that applies to you
6. A progress bar at the top shows how many required questions you have completed
7. Click "**Submit Response**" when finished
8. You will see a confirmation message when your response is recorded

Rating Scale Reference

Score	Meaning
1	Not at all
2	Slightly
3	Moderately
4	Very

For Administrators

Accessing the Admin Dashboard

1. Navigate to: <https://music-quiz-xi.vercel.app/admin>
2. Click **"Continue with Google"** or **"Continue with GitHub"**
3. Sign in with your authorized admin email
4. You will be redirected to the admin dashboard

Note: Only email addresses listed in the admin allowlist can access the dashboard. Contact the system administrator to add new admin users.

Dashboard Overview

The admin dashboard displays:

- **Total Surveys:** Number of surveys created
 - **Active Surveys:** Surveys visible to the public
 - **Total Responses:** All responses collected
 - **This Week:** Responses from the last 7 days
-

Managing Surveys

Creating a New Survey

1. From the dashboard, click **"Quizzes"** in the sidebar (or click "Create New")
2. Click **"New Survey"** button
3. Fill in the survey details:
 - **Title:** Name of the survey (e.g., "Post-Session Playing Experience Survey")
 - **Description:** Brief description shown to respondents
 - **Instructions:** Detailed instructions displayed at the top of the survey
4. Configure the rating scale:
 - **Minimum Value:** Usually 1
 - **Maximum Value:** Usually 5
 - **Scale Labels:** One label per line (e.g., "Not at all", "Slightly", etc.)
5. Add questions by clicking **"Add Question"**
6. Check **"Active (visible to public)"** when ready to publish
7. Click **"Create Survey"**

Question Types

Type	Description	Use Case
Scale (1-5)	Numeric rating with labels	Rating experience, agreement, frequency
Text Input	Free-form text response	Open-ended feedback, descriptions
Multiple Choice	Single selection from options	Demographics, yes/no questions

Adding Questions

For each question:

1. Enter the **Question Text**
2. Select the **Question Type** (Scale, Text, or Choice)
3. Check **Required** if the question must be answered
4. For Choice questions, enter options (one per line)
5. Use the arrow buttons to reorder questions
6. Click the trash icon to delete a question

Editing a Survey

1. Go to **Quizzes** in the sidebar
2. Click **"Edit"** on the survey you want to modify
3. Make your changes
4. Click **"Save Changes"**

Warning: Editing questions after responses have been collected may affect analytics accuracy.

Activating/Deactivating Surveys

1. Go to **Quizzes** in the sidebar
2. Click **"Activate"** or **"Deactivate"** next to the survey
3. Deactivated surveys are hidden from the public but data is preserved

Deleting a Survey

1. Go to **Quizzes** in the sidebar
2. Click the trash icon next to the survey
3. Confirm deletion

Warning: Deleting a survey permanently removes all associated responses.

Viewing Analytics

Accessing Analytics

1. Go to **Quizzes** in the sidebar
2. Click **"Analytics"** next to the survey you want to analyze

Analytics Dashboard Features

Summary Statistics

- **Total Responses:** Number of completed surveys
- **Last 30 Days:** Recent response count
- **Questions:** Number of questions in the survey

Average Score Chart

- Bar chart showing the average score for each scale question
- Hover over bars to see exact values

Score Distribution

- Individual charts for each scale question
- Shows how many respondents selected each score (1-5)

- Useful for identifying patterns and outliers

Recent Responses Table

- Lists the most recent survey submissions
- Shows date and scores for each scale question
- Scroll to see more responses

Sharing Survey Links

To share a survey with respondents:

1. Go to the survey's Analytics page
2. Copy the survey URL from the address bar, or
3. If no responses yet, use the "Copy Link" button

Survey URL format: `https://music-quiz-xi.vercel.app/quiz/[survey-id]`

Troubleshooting

Common Issues

"Access Denied" when logging in

- Your email is not in the admin allowlist
- Contact the system administrator to add your email

Survey not appearing for respondents

- Check that the survey is set to "Active"
- Verify the survey has at least one question

Analytics showing no data

- Ensure responses have been submitted
- Check that you're viewing the correct survey

OAuth login not working

- Clear browser cookies and try again
- Ensure you're using an authorized admin email
- Check that OAuth redirect URLs are correctly configured

Getting Help

For technical issues or to request new admin access, contact:

- System Administrator: [Add contact email]
-

Appendix: Environment Configuration

For system administrators managing the deployment:

Required Environment Variables

Variable	Description
NEXT_PUBLIC_INSTANTDB_APP_ID	InstantDB application ID

NEXTAUTH_SECRET	Random secret for session encryption
NEXTAUTH_URL	Production URL (https://music-quiz-xi.vercel.app)
GOOGLE_CLIENT_ID	Google OAuth client ID
GOOGLE_CLIENT_SECRET	Google OAuth client secret
GITHUB_ID	GitHub OAuth app ID
GITHUB_SECRET	GitHub OAuth app secret
ADMIN_EMAILS	Comma-separated list of admin emails

Adding New Administrators

1. Access the Vercel project dashboard
2. Go to Settings > Environment Variables
3. Edit `ADMIN_EMAILS` to add new emails (comma-separated)
4. Redeploy the application

Database Management

- Database: InstantDB (<https://instantdb.com>)
- Access the InstantDB dashboard to view raw data
- Use the seed script to populate demo data: `npx tsx scripts/seed.ts`
